

pcDNA3.1-gp160 (BS208.B1) Expression Vector

Cat No.:	01-01-10010
Product Name:	pcDNA3.1-gp160 (BS208.B1) Expression Vector
Description:	gp160 (BS208.B1)
Type:	Vector
Property:	Vector
Origin:	Kenya
Vector:	pcDNA3.1
Source:	E.coli
Genbank No.:	ANN12650.1
Applications:	Mammalian cell expression, pseudovirus production, etc.
Formulation:	The purified plasmid soluble in TE buffer.
Storage:	For short term, store at 4°C, stable for 3 months. For long term storage, aliquot and freeze at -20 °C. Non-hazardous. No MSDS required.
Limitation:	For research use only, not for use in diagnostic procedures.
Note:	Clade A
