

Monkey DR3-hlgG1

| | |
|---------------|--|
| Cat No.: | 03-04-1379 |
| Product Name: | Monkey DR3-hlgG1 |
| Description: | DR3/TNFRSF25 is a member of TNFR superfamily which is expressed preferentially by activated and antigen-experienced T lymphocytes. TNFRSF25 is also highly expressed by FoxP3 positive regulatory T lymphocytes. TNFRSF25 is activated by a monogamous ligand, known as TL1A (TNFSF15).May play a role in regulating lymphocyte homeostasis. |
| Type: | Protein |
| Property: | Protein |
| Source: | HEK293 |
| Genbank No.: | AFH34442 (a.a.28-202) |
| Applications: | WB,ELISA,Immunogen |
| Purity: | >95% |
| Storage: | Store at -80°C,Avoid freeze / thaw cycle. |
| Limitation: | For research use only,not for use in diagnostic procedures. |
