

Mouse CTLA-4-mIgG1

Cat No.:	03-04-0071
Product Name:	Mouse CTLA-4-mIgG1
Description:	CTLA-4, a member of B7/CD28 superfamily, functions as an immune checkpoint, downregulates immune responses. CTLA-4 is constitutively expressed in Tregs but only upregulated in conventional T cells after activation. It acts as an
Type:	Protein
Property:	Protein
Source:	HEK293
Genbank No.:	P09793 (aa.36-161)
Applications:	WB,ELISA,Immunogen
Purity:	>95%
Storage:	Store at -80°C,Avoid freeze / thaw cycle.
Limitation:	For research use only,not for use in diagnostic procedures.
