

## gp140 (266-60)

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Cat No.:      | 01-01-1490                                                  |
| Product Name: | gp140 (266-60)                                              |
| Description:  | gp140 (266-60)                                              |
| Type:         | Protein                                                     |
| Property:     | Protein                                                     |
| Origin:       | Cameroon                                                    |
| Source:       | HEK293                                                      |
| Genbank No.:  | ACC97463.1                                                  |
| Applications: | WB,ELISA,Immunogen                                          |
| Purity:       | >95%                                                        |
| Storage:      | Store at -80°C,Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only,not for use in diagnostic procedures. |
| Note:         | CRF02_AG                                                    |
