

Cat No.: 01-02-0456

Type: Recombinant Protein

Property: Accession No.ADD21560 a.a.17-530

Source: HEK293

Genbank No.: ADD21560

Applications: WB standard, antibody ELISA, immunogen, etc

Formulation: Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).

Purity: >95%

Storage: Store at -80°C, Avoid freeze / thaw cycle.

Limitation: For research use only, not for use in diagnostic procedures.
