Cat No.:	01-02-0555
Type:	Recombinant Protein
Property:	C-terminal 6xHis tagged HA1(A/chicken/Bangladesh/11rs1984-30/2011) (H5N1) protein (a.a. 20-338) (see amino acid sequence below)(Genebank Accession No. AEQ50043)
Source:	HEK293
Genbank No.:	AEQ50043
Applications:	WB standard, antibody ELISA, immunogen
Formulation:	Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).
Purity:	>95%
Storage:	Store at -80°C, Avoid freeze / thaw cycle.
Limitation:	For research use only, not for use in diagnostic procedures.
