luman Complement Receptor Type 2 (CR2/CD21) Ectodomain

Cat No.:	01-11-0028
Product Name:	Human Complement Receptor Type 2 (CR2/CD21) Ectodomain
Description:	Human Complement Receptor Type 2 (CR2/CD21) Ectodomain
Type:	Protein
Property:	C-terminal 6xHis tagged Human Complement Receptor Type 2 (CR2/CD21) Ectodomain(a.a.21-1035)(Genbank Accession No. BAD97347). hCR2 is the main receptor for EBV infection of human B cells.
Source:	HEK293
Genbank No.:	BAD97347
Applications:	WB standard, Ab ELISA, immunogen, etc.
Formulation:	Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).
Purity:	>95%
Storage:	Store at -80°C, Avoid freeze / thaw cycle.
Limitation:	For research use only, not for use in diagnostic procedures.
