Human CR2 (Scr1+2)

Cat No.:	01-11-0029
Product Name:	Human CR2 (Scr1+2)
Description:	Human CR2 (Scr1+2)
Type:	Protein
Property:	C-terminal 6xHis tagged human CR2 (Scr1+2)(a.a.21-148) (Genebank #: CAH72951). Human CR2 contains many short consensus repeats (SCRs), which also serves as a receptor for EBV gp350/220 protein. Human
Source:	HEK293
Genbank No.:	CAH72951
Applications:	WB standard, Ab ELISA, immunogen, etc.
Formulation:	Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).
Purity:	>95%
Storage:	Store at -80°C, Avoid freeze / thaw cycle.
Limitation:	For research use only, not for use in diagnostic procedures.
