

## Anti-H (Shanghai-191)(MeV)

|               |                                                                                    |
|---------------|------------------------------------------------------------------------------------|
| Cat No.:      | 01-07-0101                                                                         |
| Product Name: | Anti-H (Shanghai-191)(MeV)                                                         |
| Description:  | Anti-H (Shanghai-191)(MeV)                                                         |
| Type:         | IgG                                                                                |
| Property:     | Rabbit Polyclonal Antibody                                                         |
| Source:       | Rabbit                                                                             |
| Applications: | Neut., WB, ELISA, IP, IF                                                           |
| Formulation:  | Each vial contains 100 ug purified IgG in 100 ul<br>PBS(1mg/ml) with 40% glycerol. |
| Specificity:  | As indicated                                                                       |
| Purity:       | >95%                                                                               |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                                         |
| Limitation:   | For research use only, not for use in diagnostic procedures.                       |
