Monkey B7-H6-hIgG1

Cat No.:	03-04-0045
Product Name:	Monkey B7-H6-hIgG1
Description:	B7H6 belongs to the B7 family and is selectively expressed on tumor cells. Interaction of B7H6 with NKp30 (NCR3) results in natural killer (NK) cell activation and cytotoxicity
Type:	Protein
Property:	Protein
Source:	HEK293
Genbank No.:	XP_011748448 (aa.25-259)
Applications:	WB,ELISA,Immunogen
Purity:	>95%
Storage:	Store at -80°C,Avoid freeze / thaw cycle.
Limitation:	For research use only,not for use in diagnostic procedures.
