

Monkey CD28-hlgG4

Cat No.: 03-04-0064

Product Name: Monkey CD28-hlgG4

Description: CD28 is one of the proteins expressed on T cells that

provide co-stimulatory signals required for T cell activation

and survival. T cell stimulation through CD28 in addition to

the T-cell receptor (TCR) can provide a potent signal for the

production of various interleukins (IL-6 in particular). The

major ligands for CD28 are B7.1 and B7.2. Ant-CD3 and

anti-CD28 angonists(both concentional and superangonist)

can mimic the TCR/CD28 pathway.

Type: Protein

Property: Protein

Source: HEK293

Genbank No.: P10747 (aa.19-152)

Applications: WB,ELISA,Immunogen

Purity: >95%

Storage: Store at -80°C, Avoid freeze / thaw cycle.

Limitation: For research use only,not for use in diagnostic procedures.
