

Anti-F (RSV) ADI-14359

Cat No.:	01-07-0151
Product Name:	Anti-F (RSV) ADI-14359
Source:	Recombinant human IgG1 monoclonal antibody purified from 293 cell culture
Applications:	ELISA, IF, etc.
Purity:	>95%
Protein:	Recombinant mouse monoclonal antibody recognizing post-fusion antigenic site I of F protein from Respiratory syncytial virus (RSV). Ref: Goodwin, E., et al. Infants Infected with Respiratory Syncytial Virus Generate Potent Neutralizing Antibodies Tha
Storage:	For short term, store at 4oC, stable for 1 month. For long term storage, aliquot and freeze at -80 °C. Non-hazardous. No MSDS required.
Limitation:	For research use only, not for use in diagnostic procedures.
